At this year's annual diocesan communications conference, we're practicing the theory.

This year we're hands-on, no theory, just doing it. Topics include social media, web work, writing, creating images—all the techniques that you use to tell your story.

Bring your tools: digital camera, iPad, or phone that takes photos; a pen; a laptop. Limited to 40 participants, registrations accepted online at diocesemo.org/commconf. The only cost is lunch, if you choose to order it.

It doesn't have to be a tough nut to crack...
