**Fill out a congregational preparedness guide:** Episcopal Relief & Development has created 3 levels of preparedness guides to help congregations prepare for and respond to disasters.

- **[The Comprehensive Preparedness Planning Guide For Congregations and Parishes](#):** Includes steps for inventorying, protecting and mobilizing physical and human assets; identifying vulnerable people; anticipating response activities, and testing the first steps of a response.
  - **[Facilitator's Guide for the Comprehensive Planning Guide](#):** Packages the work of the comprehensive guide into four meetings, with suggested language for facilitators.
  -
- **[Silver Level Preparedness Planning Guide](#):** A more abbreviated version that collects less information.
- **[Bronze Level Preparedness Planning Guide](#):** Gathers only the most basic information to use after a disaster.
